AIIB at COP31 TÜRKİYE ANTALYA

AIIB EVENT

NOV. 16, 2026 | 9:30–10:30 (GMT+3) | JOINT MDB PAVILION

Smart Green Mobility: Building Clean, Connected and Sustainable Systems

Cities need mobility systems that do more than move passengers and freight. They must connect people to jobs and services, respond to changing demand, reduce emissions, use public assets efficiently and remain financially sustainable.

Decarbonizing urban mobility requires an integrated approach that brings together urban development, transport, energy and digital planning, alongside measures related to land use, public service delivery and long-term financing. The transport-energy nexus is also important. As transport becomes increasingly electrified, cities must address growing demands on electricity networks, charging infrastructure and load management. At the same time, smart charging, energy storage and vehicle-to-grid systems can help integrate renewable energy into the power supply.

The financing challenge goes beyond funding vehicles. Electric public transport requires upfront investment in buses, batteries, charging networks, depots and digital management systems, together with credible arrangements for maintenance, technology risk management and the eventual replacement of assets.

AIIB's upcoming publication, Smart Green Mobility: Building Clean, Connected and Sustainable Systems, examines how these objectives can be brought together through a whole-of-system approach.

Please join us for an engaging panel discussion on how cities can accelerate the transition towards greener, smarter and more sustainable mobility systems.

SPEAKERS

Opening Remarks	**AJAY BHUSHAN PANDEY**	Vice President, Investment Solutions, AIIB
Moderator	**ZHAOJING MU**	Advisor on Investment Operations Coordination, Office of the Vice President, Investment Solutions, AIIB
Panelists	**SAULE SABIYEVA**	Director of the Climate Policy Department, Ministry of Ecology and Natural Resources of the Republic of Kazakhstan
	EMANI KUMAR	Deputy Secretary General, ICLEI
	SARA TRÆRUP	Head of Technology Section, UNEP Copenhagen Climate Centre (UNEP-CCC)
	LUCIE ANDERTON	Director of Sustainability and North America Coordinator, International Union of Railways (UIC)
	GERARDO PARCO	Director of Sustainability and Climate Change, OPEC Fund for International Development

CONTACTS
Zhaojing Mu (zhaojing.mu@aiib.org); and
Jai Chordia (jai.chordia@aiib.org)

WHERE TO FIND US

JOINT MDB PAVILION

Blue Zone, Area B2 – D405
