

**ASIAN INFRASTRUCTURE  
INVESTMENT BANK**

---

## **Fang Ke**

Manager, Implementation Monitoring Unit

Fang is Manager of the Implementation Monitoring Unit (IMU) and Acting Manager of the newly established Operational Services Department (OSD). The IMU is mainly responsible for overseeing the Bank's investment portfolio, including both sovereign-backed and non-sovereign-backed financings. It also monitors and reports implementation performance of the projects that have been transferred from origination teams. Additionally, IMU also provides secretariat services to AIIB's Investment Committee, leads and coordinates the IT system development for investment operations, and coordinates operations related data analysis and knowledge management. The OSD provides specialist services to support investment operations, in areas such as environmental and social development, procurement, integrity, financial management, and operational legal services that are critical to ensure high quality of AIIB's investments.

Prior to joining AIIB as Manager, Investment Operations in 2016, Fang worked for the World Bank for more than 15 years, holding various responsibilities including as Global Lead for Urban Mobility, Lead Transport Specialist and the head of India transport team, and was instrumental in many innovative policy and investment activities in various countries across

Asia and Africa. Fang holds a PhD in Urban Planning from Tsinghua University, where he was a lecturer and research staff from 1997 to 2000. He was also a SPURS Fellow at MIT from 2000 to 2001. Fang is a national of China.
