EVENT DESCRIPTIONS

The **Asian Infrastructure Investment Bank (AIIB)** is a multilateral development bank established in 2016 dedicated to financing “Infrastructure for Tomorrow”, with sustainability at the core of its mission. Over the past ten years, UK firms and individuals have secured multiple contracts under AIIB-financed projects, generating a total contract value of USD 9.7 million. Most of these contracts were awarded through open international competition under AIIB’s Sovereign-backed Investment Projects. Building on this track record, UK firms are well positioned to compete for future opportunities as AIIB continues to expand its portfolio and invest in sustainable infrastructure across its member countries, creating a growing pipeline of procurement and consulting opportunities.
