

**AIIB REPORT ON
THE POLICY ON PUBLIC INFORMATION
FOR THE PERIOD FROM JAN. 1 TO MARCH 31, 2026**

1.1. Objective

1. To uphold its commitment to accountability and transparency, AIIB reports to the Board on the implementation of the Policy on Public Information (PPI) on a quarterly basis. This section describes PPI implementation, covering proactive disclosures and responses to information requests in Q1 2026.

1.2. Q1 2026 Proactive Disclosures

2. **Results.** In Q1 2026, AIIB's proactive disclosure of information, as tracked,¹ was 97% in compliance with the Bank's requirements, up from 88% in Q4 2025 and 96% in Q1 2025:

- (i) All institutional information tracked was disclosed in a timely manner.
- (ii) Of the 28 items tracked for operational information, including initial Project Summary Information (PSI) documents, client environmental and social (ES) documentation, and project documents (PD), 26 (93%) were disclosed in a timely manner, with delays in one initial PSI document and one ES document. Strengthened internal coordination eliminated delays in PD disclosure, ensuring timely publication following the high rate of delays in Q4 2025.
- (iii) In Q1 2026, AIIB disclosed all 43 SBF Project Implementation Monitoring Reports produced in the reporting period in a timely manner, compared to 49 in the previous quarter and 12 in the same quarter last year. Five Project Completion Note (PCN) was disclosed in Q1 2026, compared to none in Q4 2025 and one PCN disclosed in Q1 2025.

3. **Improvement.** The Bank disclosed a consolidated list of contract awards for 2016-2025 in Q1 2026 as a [downloadable document](#), creating increased access to information about contract awards. This information was previously available in the Annual Operational Procurement Report and the respective project webpages.

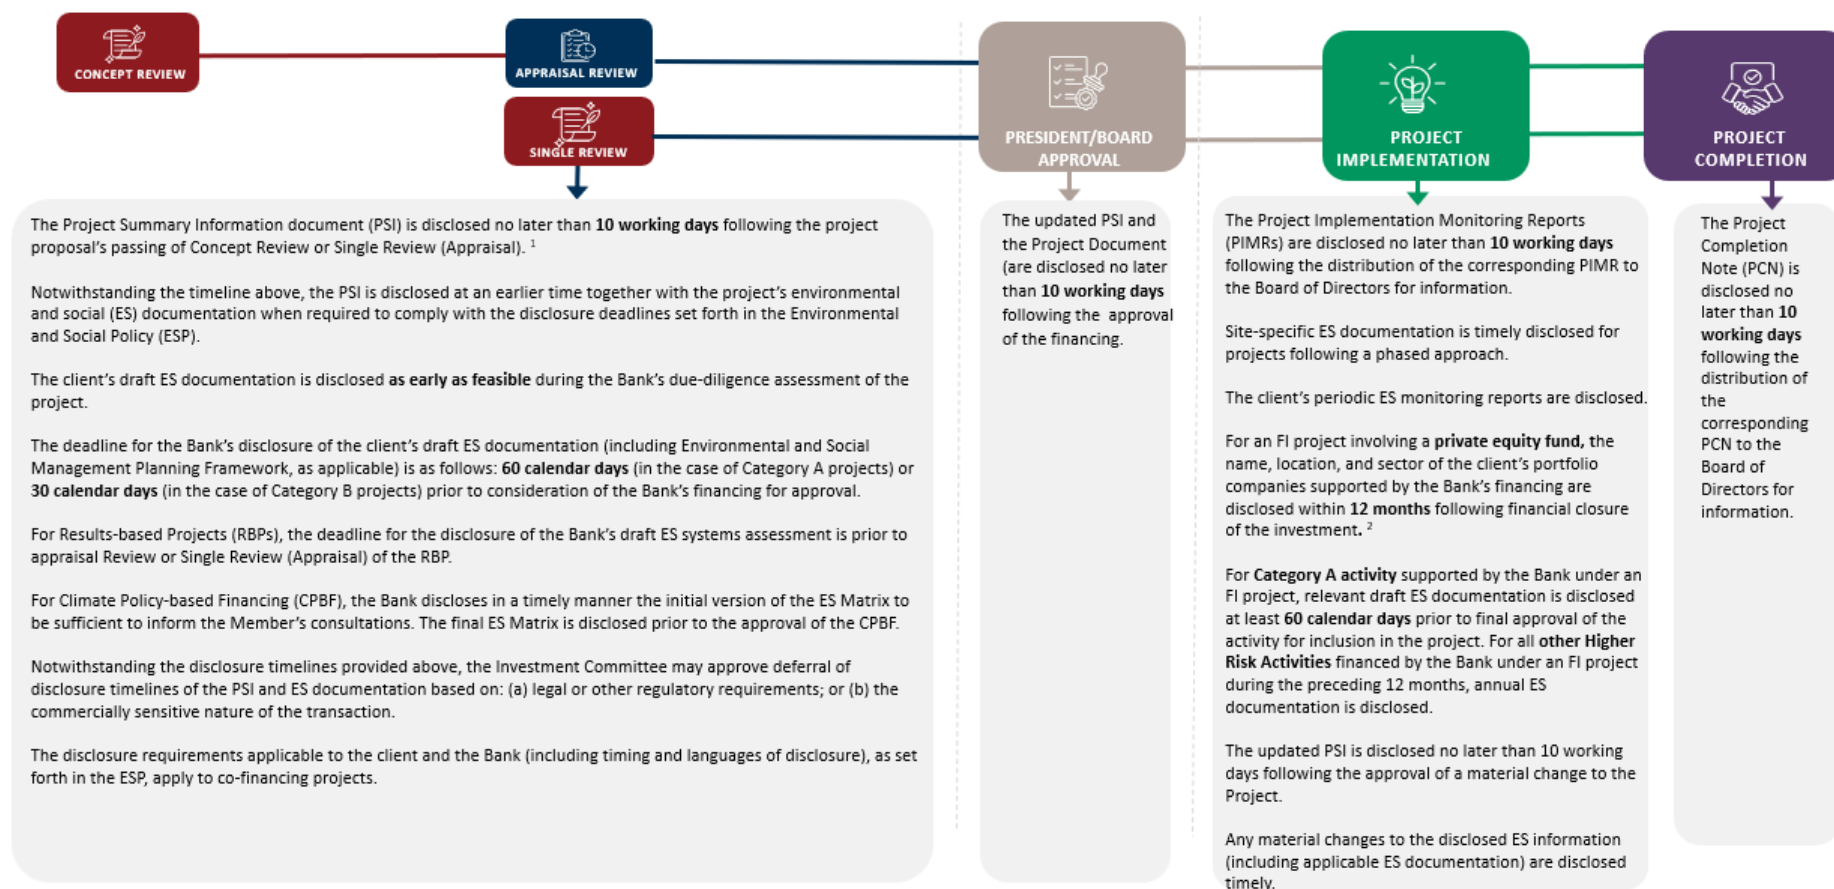

¹ This includes financial, institutional and operational information which AIIB proactively discloses. AIIB tracks the disclosure of financial and institutional information against the timeline set out in the [Directive on Public Information](#). For operational information, AIIB tracks the disclosure of the initial PSI document and the client's initial draft E&S documentation for both NSBF and SBF, as well as the full PD for SBF, according to the revised [Operational Policy on Financing](#) (OPF, 2024), the [Environmental and Social Framework](#) (ESF, 2022 and 2024) and the associated Directives. (Check the flowcharts for key project information triggered for disclosure during the project process in the Annex). The data on SBF Project Implementation Monitoring Reports (PIMR) and PCNs is provided separately due to their different nature.

1.3. Q1 2026 Responses to Information Requests

4. **Results.** The Bank received 147 requests from the [Public Information Request portal](#), up by 6% from Q4 2025 and by 24% from Q1 2025, owing to an increase in requests for project financing. All requests except two were closed within the required deadline of 30 working days upon receipt. In line with the PPI Directive, interim responses to the two requests were sent to the requesters within the 30 working days, with an explanation for the expected delay. “Project,” “career opportunities,” and “procurement” were the top request categories. The highest number of requests originated from China, Uzbekistan, and India.

Annex

Figure 1. Disclosure Workflow for Sovereign-backed Financings

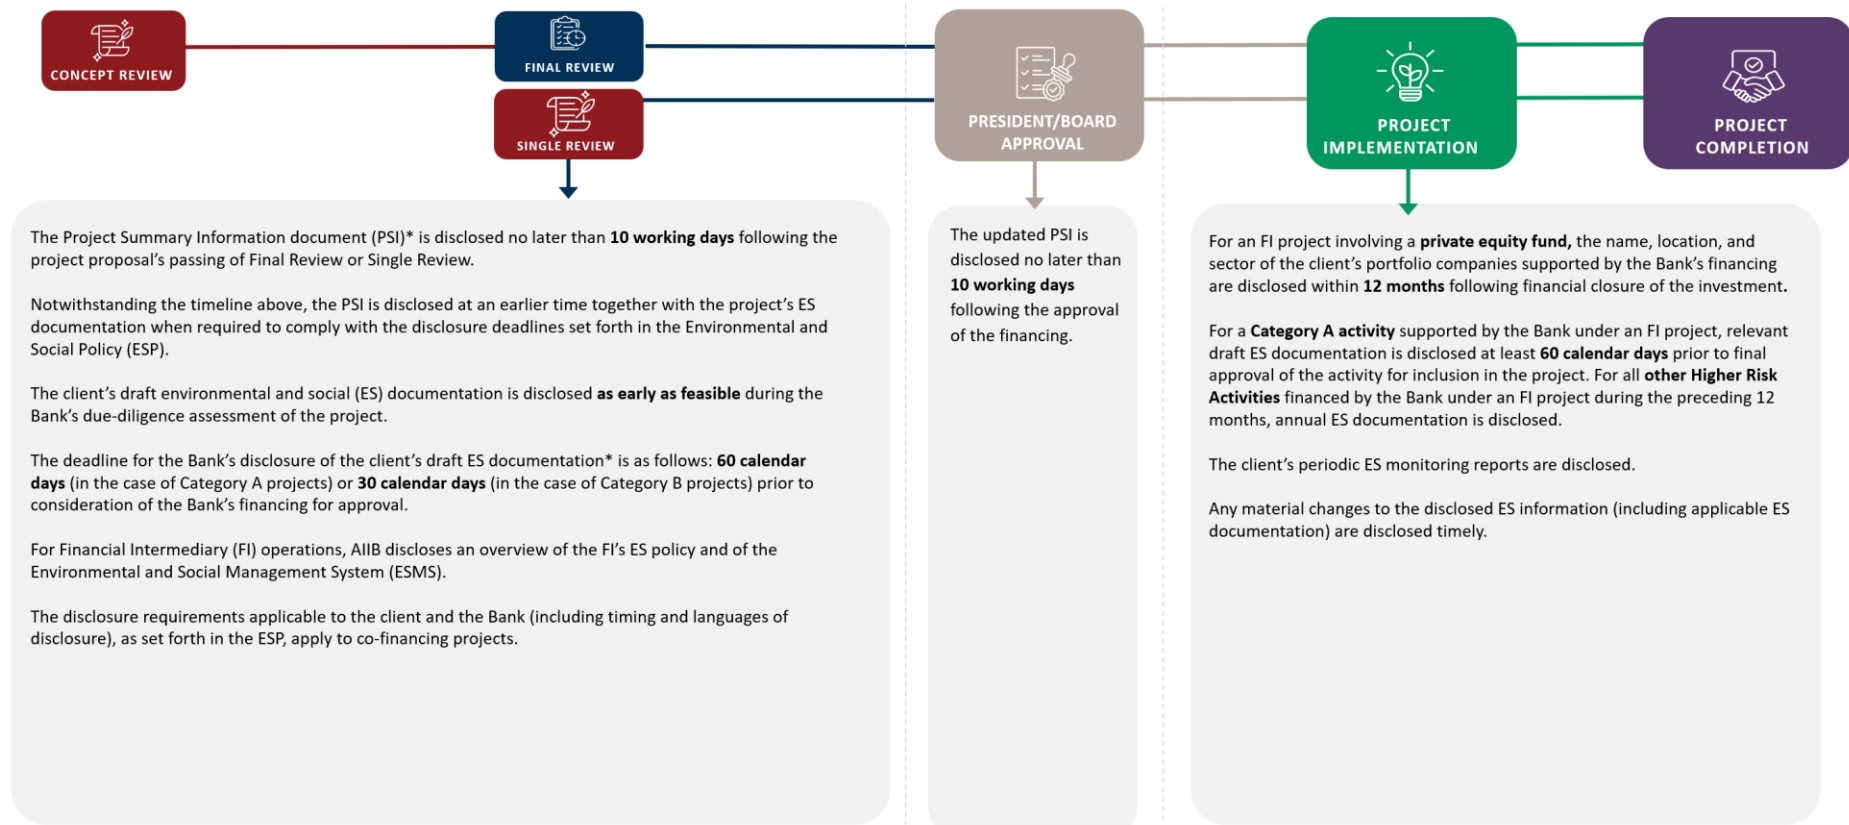

¹ The disclosed PSI is updated throughout the project cycle as necessary to maintain the accuracy of the disclosed information.

² For Financial Intermediary (FI) operations, AIIB discloses an overview of the FI's ES policy and of the Environmental and Social Management System (ESMS).

This chart is only illustrative. For more details, please refer to the 2024 [Operational Policy on Financing](#) (OPF), the 2024 [Environmental and Social Framework](#) (ESF), and the associated [OPF Directive](#) (2025) and [ESF Directive](#) (2026).

Figure 2. Disclosure Workflow for Nonsovereign-backed Financings

* The Investment Committee may approve deferral of disclosure timelines of the PSI/ES documentation based on: (a) legal or other regulatory requirements, such as timing requirements relating to securities offerings, equity investments in publicly listed companies, or purchases of shares in a private placement; or (b) the commercially sensitive nature of the transaction, involving, for example, an acquisition or a financial restructuring, where premature disclosure would compromise the financial worth or competitiveness of a corporate entity or its assets.

The disclosed PSI is updated throughout the project cycle as necessary to maintain the accuracy of the disclosed information.

This chart is only illustrative. For more details, please refer to the 2024 [Operational Policy on Financing](#) (OPF), the 2024 [Environmental and Social Framework](#) (ESF), and the associated [OPF Directive](#) (2025) and [ESF Directive](#) (2026).
