Executive Summary

This report summarizes the Asian Infrastructure Investment Bank (AIIB)'s information disclosure practices during the period from April 1 to June 30, 2022 (Q2, 2022).

It looks at AIIB's proactive disclosure of information and responses to requests for information by the requirements set in the Policy on Public Information (PPI) and its Directive.

AIIB's revised Environmental and Social Policy (ESP) entered into effect during Q4 on Oct. 1, 2021. As the disclosure requirements for environmental and social information under the 2019 ESP changed with the introduction of the 2021 ESP, this report continues to indicate which projects are subject to which ESP.

During Q2, 2022, the Bank's proactive disclosure of information is largely in compliance with the Bank's requirements.

The Bank received 92 requests from the [Public Information Request portal](#), all except one closed within 30 working days following receipt. The reason for the delayed response was due to a novel request for which the Bank needed to seek third-party consent to disclose the requested information. China, India and Mauritius were the top three origins of requests. Requesters from financing and consulting firms and academia composed the top three largest identifiable groups.

As part of its system enhancement plan, AIIB introduced some technical upgrades to the back-end system for the Public Information Request portal to improve efficiency in processing requests and providing consistent branding experience for users in receiving AIIB responses.

1. Proactive Disclosure

AIIB proactively discloses information according to the [Directive on Public Information](#) on:

Financial Information	Institutional Information	Operational Information
<ul style="list-style-type: none"> - Audited annual financial statements, including special funds and trust funds - Unaudited condensed quarterly financial statements 	<ul style="list-style-type: none"> - Basic Documents - Governance - Policies, Strategies and Directives and Amendments to these Documents 	<ul style="list-style-type: none"> - Non-sovereign-backed Financing Projects - Sovereign-backed Financing Projects

Table 5 shows the length of disclosure of the initial PSI and draft environmental and social (ES) information before Board/President approval. During this period of transition, most projects entering the Bank’s investment pipeline prior to October 2021 are governed by the 2019 ESP, while all those entering the pipeline thereafter are governed by the 2021 ESP. For Projects governed by the 2019 ESP, the timing of disclosure of the PSI and ES information is linked to Management decision points and not to Board/President approval, whereas for newer Projects governed by the 2021 ESP, the disclosure timing of the ES information is linked to approval and varies depending on the Project’s ES categorization.

For FI Projects, the focus is on disclosure of ES information for subprojects financed by AIIB under the Project. Under the 2021 ESP, a summary of the FI’s ES policy and management system is disclosed early during Project preparation; and ES information on Category A subprojects is normally disclosed 60 calendar days prior to final approval by AIIB of the activity for inclusion in the Project, while the ES information for Category B subprojects is normally disclosed on an annual basis. Thus, the timing of disclosure of ES information for subprojects is not linked to the date of approval of the Project by AIIB, but rather to the date of approval by AIIB of the subproject for inclusion in the financing. (See, *ESS 1, Sec. 21.*)

All the projects approved in Q2 and listed in Table 5 are governed by 2019 ESP. Nevertheless, this table shows disclosure of their PSI and ES information with all these Projects measured against approval.

1.3.2. Projects under the AIIB COVID–19 Crisis Recovery Facility

AIIB discloses information on investment projects that fall under its COVID-19 Crisis Recovery Facility (Facility) in accordance with the Paper on the Decision to Support the Facility.

In some cases, a nondisclosed Memorandum and Recommendation of the President (MoP) is used in place of a Project Document (PD), in which case AIIB discloses information on the operation via the PSI. A MoP is used instead of a PD for policy-based lending (PBL), development policy financing (DPF) and vaccine supply operations co-financed under the Facility with the Asian Development Bank (ADB) or the World Bank (WB).

In addition, Client environmental and social documentation disclosure requirements for Projects processed under the Facility may, pursuant to the ESP’s provisions on “Projects in Situations of Urgent Need of Assistance” (in both 2019 and 2021 versions), be deferred beyond the date of approval of the Project. Finally, the environmental and social disclosure requirements do not apply to PBLs and DPFs that support policy actions taken by the beneficiary government and are not targeted to specific investments. Environmental and social aspects under co-financed vaccine supply operations are addressed in the Project documentation of the co-financier.

Non-sovereign-backed Financing

Table 5 show the events in Q2 2022 that required proactive public disclosure of operational information by the Bank, and the resulting disclosure. The project listed in Table 5 is governed by the 2021 ESP.

Table 7 shows the length of disclosure of the initial PSI and draft environmental and social (ES) information before Board/President approval.

During this period of transition, most projects entering the Bank's investment pipeline prior to October 2021 are governed by the 2019 ESP, while all those entering the pipeline thereafter are governed by the 2021 ESP. For Projects governed by the 2019 ESP, the timing of disclosure of the PSI and ES information is linked to Management decision points and not to approval, whereas for the newer Projects governed by the 2021 ESP, the timing of disclosure of ES information is linked to approval, and varies depending on the Project's ES Categorization.

For FI Projects, the focus is on disclosure of ES information for subprojects financed by AIIB under the Project. Under the 2021 ESP, a summary of the FI's ES policy and management system is disclosed early during Project preparation; and ES information on Category A subprojects is normally disclosed 60 calendar days prior to final approval by AIIB of the activity for inclusion in the Project, while the

ES information for Category B subprojects is normally disclosed on an annual basis. Thus, the timing of disclosure of ES information for subprojects is not linked to the date of approval of the Project by AIIB, but rather to the date of approval by AIIB of the subproject for inclusion in the financing. (See, *ESS 1, Sec. 21.*)

Finally, as noted above, for Projects processed under the Facility, the ES information may, pursuant to the ESP's provisions on "Projects in Situations of Urgent Need of Assistance" (in both 2019 and 2021 versions), be deferred beyond the date of approval of the Project. In addition, the environmental and social disclosure requirements do not apply to PBLs and DPFs that support policy actions taken by the beneficiary government and are not targeted to specific investments.

Projects in Table 7 are governed by 2021 ESP.
