2. Project Summary and Objectives

Objective: To support and increase the supply of liquidity to corporate and small-medium sized private enterprises in Sri Lanka affected by the economic upheaval due to the coronavirus disease pandemic.

Summary: The project is supported by two sovereign-backed loans, one to each of two state-owned banks, Bank of Ceylon (BOC) and People's Bank (PB). The project aims to address the urgent need for liquidity by providing credit to corporates and small and medium-sized private enterprises (SMEs). These companies are facing short-term funding challenges due to the outbreak of the coronavirus disease (COVID-19) pandemic and the continued provision of credit is necessary to support the productive capacity of the country. BOC and PB are on-lending the proceeds to corporates and SMEs in the form of short-term working capital loans. Govt of Sri Lanka is the guarantor of the loans. This project has been processed under the AIIB's COVID-19 Recovery Facility (CRF); a framework designed to assist members in responding to the COVID-19 pandemic.

Financial Plan: AIIB loans totaling USD180 million; USD90 million each to BOC and PB. The loans have a final maturity of 7 years, including a grace period of 2 years and 6 months, and is made on standard Fixed Spread Loan terms for sovereign-backed loans with the corresponding average maturity.

5. Project Implementation Update

Both loans to People's Bank (L0408A) and Bank of Ceylon (L0408B) became effective on April 19, 2021. First disbursements of USD 45.225 million to each bank were made on April 22 (BOC) and April 23 (PB) 2021, including payment of capitalized upfront fees. BOC disbursed over 80% as sub-loans and applied for a second withdrawal of the amount of USD 44.775 million, which was disbursed on June 28, 2021. PB also disbursed over 80% as sub-loans and applied for a second withdrawal of the amount of USD 44.775 million, which was disbursed on September 29, 2021. Thus both PB and BOC have fully drawn their respective facilities. Both PB and BOC have paid the interest payment to AIIB on their respective facilities on time both in December 2022 and June 2023 despite the ongoing financial crisis in Sri Lanka and sovereign default on all foreign currency denominated debt (except trade facilities and borrowings from Multilateral Development Banks) announced in April 2022. Project Team proposes to retain the number of red flags at one in this PIMR due to ongoing macroeconomic challenges in Sri Lanka and delay in submission of project audit report for 2022 by both BOC and PB. Project Team notes that there has been some improvement in the macroeconomic situation in Sri Lanka over the past 6 months, with the IMF disbursing the first tranche of USD 330 million under its EFF facility in March 2023.

Financial Management:

- Both bank's project audit reports for financial year ended December 31, 2022 are outstanding
- PB and BOC have both submitted the project internal audit report for 2022.
- Project team has been consistently following-up with the borrowers for the pending compliances.

6. Status of the Grievance Redress Mechanism (GRM)

The existing GRM for People's Bank (<https://www.peoplesbank.lk/contact-us/>) and the project specific GRM for Bank of Ceylon (<https://www.boc.lk/business-banking/corporate/project-financing/project-implementation>) are both under operation. So far, no complaints have been received regarding the Project.
