ABOUT AIIB
Asian Infrastructure Investment Bank

Who we are
Multilateral Development Bank (MDB) established by international treaty and headquartered in Beijing, founded to bring countries together to address Asia’s infrastructure funding gap. Our core principles are financial sustainability and sound banking, strong multilateral governance and oversight, and high project standards.

Our Vision and Mission
Our Vision is a prosperous Asia based on sustainable economic development and regional cooperation.

Our Mission is Financing Infrastructure for Tomorrow. By investing in sustainable infrastructure, AIIB unlocks new capital, new technologies and new ways in which to address climate change and to connect Asia, and the world.

We will achieve this working in partnership. By being agile and adaptable, the Bank will meet client needs and operate to the highest standards.

Credit strength
Strong support from a diversified global shareholder base. USD100 billion capital stock with 20% assigned to paid-in capital. Conservative risk management and financial policies. Experienced management team.

AAA/Aaa/AAA credit rating with a stable outlook.

0% risk weight and HQLA1.

AIIB’s foundation is built on the lessons and experience of other MDBs and the private sector. Its core values are:

- **Lean**, with a small efficient management team and highly skilled staff.
- **Clean**, an ethical organization with zero tolerance for corruption.
- **Green**, an institution built on respect for the environment.
OVERVIEW OF SHAREHOLDING STRUCTURE

105 approved members

The Bank…will help to mobilize much needed additional resources from inside and outside Asia… and will complement the existing multilateral development banks.

Articles of Agreement

*Prospective founding member: These are prospective members who were the original signatories to the AIIB Articles of Agreement in June 2015. Those who sought membership after that date are simply called prospective members. All prospective members have been approved by the Board of Governors but have not yet met the full requirements of membership.
• AllIB’s authorized capital stock is USD100 billion, with USD20 billion as paid-in capital made in five annual installments. The absolute amount of paid-in capital ranks among the highest of MDBs. Currently 98% of AllIB’s allocated capital has been subscribed.

• USD19.07 billion received as at August 22, 2022.

• In view of its regional focus, AllIB’s regional members will hold the majority of capital stock—a minimum of 75%.

• In line with other MDBs, AllIB expects to benefit from preferred creditor treatment such as in its members, it will not be required to participate in any rescheduling of national debt. Member liabilities to AllIB, such as sovereign loans or sovereign guarantees on private sector projects, rank on par with their obligations to the IMF and other MDBs.

Notes:
1. Loan investments at amortized cost, bond investments at amortized cost (investment operations), investment in associate, investments at fair value through profit or loss (investment operations). **Total amount of approved financings is USD35.830 billion as at Aug. 22, 2022.**
2. Cash and cash equivalents, term deposits and certificates of deposit, bond investments at amortized cost (treasury liquidity), and investments at fair value through profit or loss (treasury liquidity).
3. Paid-in capital receivables, funds deposited for cofinancing arrangements, derivative assets, intangible assets, property, plant and equipment, and other assets.
4. Paid-in capital plus retained earnings minus reserve for accretion of paid-in capital receivables minus reserve for unrealized loss on fair-valued borrowings arising from changes in own credit risk.
5. Derivative liabilities, prepaid paid-in capital, and other liabilities.
EXPOSURES RELATED TO RUSSIA, BELARUS AND UKRAINE

• In the Asian Infrastructure Investment Bank’s (AIIB) official statement on the war in Ukraine, AIIB Management expressed its sympathies and announced that it has decided to place all activities relating to Russia and Belarus on hold and under review.

• AIIB does not have any approved financings, or related exposures, in or to either Belarus or Ukraine, and, as detailed below, AIIB has limited exposures in Russia and to the Russian ruble (RUB). The Bank remains in an exceptionally strong financial condition. AIIB’s accounts are prepared in accordance with International Financial Reporting Standards. The exposures continue to be monitored and expected credit losses are being assessed accordingly.

• As at Jun. 30, 2022, AIIB had total assets of USD43.87 billion and the following Russian related exposure:
  o one Russian ruble loan outstanding (fully drawn in December 2020) to a client in Russia, totaling RUB24 billion

• AIIB has issued four bonds denominated in Russian rubles (each issued in Euroclear / Clearstream with an XS ISIN), two of which remain outstanding, totaling RUB11.5 billion. The terms and conditions of these bonds allow for payments in USD in certain cases, including where RUB is not used in the international banking community. These bonds were hedged at the time of issuance to remove AIIB’s RUB interest rate and FX risk.

FINANCING INFRASTRUCTURE FOR TOMORROW—THEMATIC PRIORITIES

A firm commitment to sustainability in all of its dimensions—economic, financial, social and environmental

Green Infrastructure
Promoting green infrastructure and supporting members to meet their local and national environmental and development goals, especially their commitments under the Paris Agreement and the United Nations’ Sustainable Development Goals.

Connectivity and Regional Cooperation
Facilitating better transport, digital, energy and water connectivity within Asia and between Asia and the rest of the world. It will also support projects that facilitate trade, cross-border investment, tourism, financial and digital integration across Asian economies and beyond.

Technology-enabled Infrastructure
Based on the enhanced recognition of the important role technology plays, AIIB will support projects where the application of technology delivers better value, quality, productivity, efficiency, resilience, sustainability, inclusion, transparency and better governance along the project cycle.

Private Capital Mobilization
To support projects that directly or indirectly mobilize private financing into sectors within AIIB’s mandate. Includes developing infrastructure as an asset class in Asia.

COVID-19 CRISIS RECOVERY FACILITY—UP TO USD20 BILLION

Scope—what can the facility be used for?

AIIB has created a COVID-19 Crisis Recovery Facility (CRF) to support AIIB’s members and clients in alleviating and mitigating economic, financial and public health pressures arising from COVID-19.

For projects that have entered the CRF Pipeline prior to February 24, 2022, AIIB will consider financing immediate health sector needs (incl. vaccines), economic resilience and liquidity constraints.

For CRF projects that will enter into the CRF pipeline after February 24, 2022, AIIB will consider a narrower scope of eligible pandemic-related responses for financing as follows:

- Cofinancing the procurement, distribution and deployment of COVID-19 vaccines and therapeutics
- Cofinancing Policy-Based Financing for enhanced pandemic response, preparedness, and recovery
- Financing essential COVID-19 emergency health care or urgent expenditure needs
COFINANCING WITH PEER MDBs TO ENHANCE IMPACT

Partnerships with other MDBs

AIIB intends to benefit from the experience of other MDBs to enhance its operating efficiency, product offerings and to reduce costs. AIIB has signed Memorandum of Understanding (MOU) with ADB, AfDB, EBRD, EDB, EIB, ESM, IADB, IFAD, IsDB, NDB, and WBG.

Cofinancings have a range of benefits:

- Ability for MDB community to take on larger infrastructure projects.
- Enables AIIB to share project risk with other MDBs.
- Cofinancings help reduce pressure on AIIB individual country exposure limits.
- Collaboration benefits entire MDB community with cross-fertilization of project management experience.

AIIB is investing USD500 million to develop and construct an 82 km rail-based rapid transit system in India, thus improving the efficiency, safety, social inclusiveness, and environmental sustainability of transport in the Delhi–Meerut corridor of the National Capital Region (NCR).

The Project will connect Sarai Kale Khan in Delhi to Modipuram in Meerut via Ghaziabad, the densely populated sections of the NCR. With a design speed of 180 km per hour (km/h) and an average speed of 100 km/h, the system is expected to significantly reduce vehicle travel time from 3-4 hours to 1 hour and cut about 258,035 tons of CO₂ emissions annually compared with existing road-based transport.

The faster, more reliable, and better-quality integrated transport services will benefit numerous passengers. Improved mobility will also facilitate the expansion of economic activities from urban centers to broader NCR, providing new job opportunities and benefitting residential and commercial establishments along the corridor.
AIIB is helping Oman improve the balance between power supply and demand as well as reduce its dependence on gas and other fossil fuels for electricity generation through an investment of USD60 million in a 500 MW solar PV power plant.

AIIB’s involvement has encouraged wider support from regional investors and institutions for the project, which will make the largest utility-scale independent solar power plant in Oman. Once fully constructed and operational, it will generate 1,598 GWh of electricity and avoid about 790,000 tons of CO₂ emissions annually. In line with the government’s National Energy Strategy 2040, which aims to generate 10 percent of the country’s energy from renewable sources by 2025 and 30 percent by 2030, the project contributes to diversifying its economy and its electricity generation towards a more balanced and environmentally sustainable future.
AIIB approved USD150 million for the Bank’s first satellite-based infrastructure development program that will allow citizens of Indonesia to communicate across the archipelago.

The financing will be used to develop, launch and operate a telecommunications satellite that will provide connectivity to around 45 million people in some of the most remote parts of Indonesia.

The project is carried out under an innovative public-private partnership (PPP) that brings together the Indonesian government and the private sector with help from AIIB. Upon completion of the project, digital inclusion will be brought to students in nearly 94,000 schools through online education, connectivity for around 3,700 health centers will be improved, and 3,900 local governments will be linked with their headquarters in Jakarta. Those links will bring knowledge, trade opportunities, improved health care and government services—transforming lives for the better.

III. ENVIRONMENTAL, SOCIAL AND GOVERNANCE

IV. KEY FINANCIAL POLICIES

V. AIIB SUSTAINABLE DEVELOPMENT BONDS

APPENDIXES AND USEFUL LINKS
AIIB’S COMMITMENT TO SUSTAINABLE GROWTH

Firm commitment to sustainability by requiring that all investments be:

• Financially and economically sustainable
• Socially sustainable and inclusive
• Environmentally sustainable

AIIB Invests in i4t, the Infrastructure for Tomorrow:

- Addresses ecological impacts like water and air quality, biodiversity, pollution and climate change.
- Socially and Inclusive: Gives inclusive access, particularly to citizens excluded from access to infrastructure services.
- Financially and economically sustainable: Projects with sound ROI, that raise economic growth and increase productivity.
AIIB’S COMMITMENT TO SUSTAINABLE GROWTH

AIIB’s Environmental and Social Framework (ESF) is at the core of the Bank.

Elements of the ESF

• Vision
• Environment and Social Policy (ESP)
• Environmental and Social Standards (ESS)
• Environmental and Social Exclusion List (ESEL)

Objectives of the ESF

• Provide a robust structure for managing the operational and reputational risks of the Bank and its shareholders in relation to a project’s environmental and social risks and impacts.
• Ensure the environmental and social soundness and sustainability of projects.
• Support the integration of the environmental and social aspects of projects into the decision-making process of all parties.
• Provide a mechanism for addressing environmental and social risks and impacts in project identification, preparation and implementation.
• Enable clients to identify and manage the environmental and social risks and impacts of projects, including those of climate change.
• Provide a framework for public consultation and disclosure of environmental and social information in relation to projects.
AIIB’S COMMITMENT TO SUSTAINABLE GROWTH

AIIB’s existing investments in energy, transport, sustainable cities, digital infrastructure and water sectors directly support four SDGs:

• SDG 6: Clean water and sanitation.
• SDG 7: Affordable and clean energy.
• SDG 9: Industry, innovation and infrastructure.
• SDG 11: Sustainable cities and communities.

AIIB’s investments either directly or indirectly contribute to other SDGs. For example,

• AIIB’s support for its clients in the COVID-19 pandemic and future investment in social infrastructure over the Corporate Strategy period would contribute to SDG 3: Good health and well-being and SDG 4: Quality education.
• AIIB’s commitment to climate finance can be mapped against SDG 13: Climate action.
• AIIB’s commitment to increase its connectivity and regional cooperation operations is expected to be reflected in SDG 8: Decent work and economic growth, and SDG 17: Partnerships for the goals.
• AIIB’s efforts to increasingly incorporating gender considerations into projects can contribute to SDG 5: Gender equality.

APPENDIXES AND USEFUL LINKS
**OVERVIEW OF CAPITAL AND RISK MANAGEMENT**

Economic capital is the fundamental measure of risk appetite

**Key financial and risk management policies**

- Prudent risk management policies with economic capital being the fundamental measure of risk appetite utilization.

- Manage risks, such that AIIB is financially sustainable on a standalone basis, preventing the need to require recourse to its callable capital.

- All risks are managed to defend, preserve and protect AIIB’s triple-A ratings.

- AIIB’s Risk Appetite Statement requires that AIIB risk appetite is allocated below its capacity, determined by the Bank’s available capital (i.e., received paid-in capital, reserves and retained earnings).

- Total amount outstanding of loans, equity investments, guarantees and other types of financings shall not exceed the total amount of the Bank’s unimpaired subscribed capital, reserves and retained earnings¹.

- Market risk is managed within internally set Value-at-Risk (VaR) and duration limits.

---

**Economic Capital**

The overarching principal driving risk allocation³

- Financing Credit Risk
- Equity Investment Risk
- Market Risk including Asset & Liability Risk
- Counterparty Credit Risk
- Operational Risk

**Total Capital Utilization**

<table>
<thead>
<tr>
<th>Available Capital</th>
<th>USD19.9 billion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Current Capital Usage</td>
<td>29.2%</td>
</tr>
</tbody>
</table>

Notes: 1. Source: AIIB Articles of Agreement, Article 12.1.
2. Economic Capital is defined as the capital required to withstand losses over one year to a 99.99 percentile level of confidence.
3. The following financial risks are managed outside the economic capital framework: liquidity risk and model risk.
   No economic capital is allocated for other nonfinancial risks (compliance risk, integrity risk, and environmental and social risk).
OVERVIEW OF LIQUIDITY MANAGEMENT

Prudent Liquidity Risk Management

Liquidity Portfolio

- Managed to ensure availability of liquidity via conservative and stress-tested models.
- Eligible investments:
  - Money market funds (AAA rating)
  - Sovereign, Supranational, Agency (SSA)—senior debt (minimum A rating)
  - Corporate—senior debt (minimum AAA rating)
  - Other Financials (minimum A minus rating)
- External managers used for portfolio diversification.

Liquidity Risk

- Liquidity portfolio should cover at least 40% of net cash requirements for the upcoming 36 months and 100% of stressed net cash requirements for any upcoming 12-month period.
- Liquidity expected to remain well in excess of policy requirements.

Credit ratings do not constitute investment or financial advice, and credit ratings are not recommendations to purchase, hold or sell particular securities. Credit ratings do not comment on the suitability of an investment for any particular investor. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a rating agency in the future if, in its judgment, circumstances so warrant.
SUSTAINABLE DEVELOPMENT BONDS

Invest in our commitment to sustainability

- AIIB Sustainable Development Bond Framework presents a summary of the policies, strategies, processes, and mechanisms that govern AIIB’s commitment to sustainable financing activities. The Framework applies to all debt issued by AIIB.

- The Framework outlines how AIIB is adhering to the principles set out in its Environmental and Social Framework that guides project selection, and how it is helping its members to meet their commitments under the Paris Agreement and the UN Sustainable Development Goals.

- The Framework includes the following four core components: (i) Use of Proceeds, (ii) Process for Project Evaluation and Selection, (iii) Management of Proceeds and (iv) Reporting.

- AIIB is rated by three ESG rating agencies; ISS ESG, Sustainalytics, and Vigeo Eiris. These ratings are solicited by investors and are based on industry-specific environmental, social and governance (ESG) criteria.

C+ (Prime), Apr. 2019 10.3 Low Risk, Apr. 2021 Advanced, Sep. 2021
IMPACT REPORT 2020
Investing Today, Transforming Tomorrow

• AIIB has launched its inaugural Sustainable Development Bonds Impact Report that offers investors a view of the sustainable nature and impact of AIIB’s development work.

• Under its Sustainable Development Bond Framework, AIIB has committed to annual impact reporting on the Bank’s overall portfolio and project-level results reflecting environmental and social benefits generated by its financing.

• AIIB’s inaugural Impact Report presents data on AIIB’s portfolio volume, alignment with thematic priorities and portfolio performance during the Bank’s first five years of operations from 2016 to 2020. It also focuses on 12 project stories selected from key infrastructure sectors that show how AIIB is making positive environmental and social impacts, including through investments in improving energy efficiency, enhancing urban sustainability, achieving climate resilience and catalyzing private capital.

• As a young and growing institution, AIIB will continue to improve its approach to impact reporting, including the way to collect and maintain data, monitor results, and aggregate impacts.
FUNDING STRATEGY

AiIB as a prime, frequent issuer in international markets

- Two main pillars of capital market funding:
  - Public transactions: Global benchmark format in G10 and SDR currencies; Large size, liquid secondary market trading
  - Reverse enquiry issues: Variety of currencies, customization at investor demand; Buyback program provides liquidity backstop to investors

- Develop a broad range of unsecured funding instruments and sources of liquidity.
- Diversify in terms of currency and investor type.
- Deliver comprehensive and continuous investor marketing.
- Utilize money market funding for bridge financing.
- AiIB’s buyback program covers both public benchmarks and private placements. Buyback transactions are executed through dealers who have existing relationship with AiIB.
- 2022 borrowing authority of USD10 billion. This is expected to rise gradually to reach circa USD15 billion per annum by late 2020s.

- **Maturity date:** June 15, 2023
- **Coupon:** 2.40%
- **Issue price:** 100%
- **Issue spread vs. 3y CDB:** -23 bps
- **Issue spread vs. 3y CGB:** +7 bps
AIIB ENERGY SECTOR STRATEGY

Sustainable Energy for Asia

- AIIB’s Energy Sector Strategy sets the framework, principles, and operational modalities that guide AIIB’s energy sector engagement. In line with this Strategy, the Bank aims to support its clients to:
  
  i. develop and improve their energy infrastructure;
  ii. increase energy access;
  iii. facilitate their transition to a less carbon-intensive energy mix; and
  iv. meet their goals and commitments under global initiatives such as Nationally Determined Contributions to implement the Paris Agreement, Sustainable Energy for All, and UN Sustainable Development Goals.

- AIIB will support and accelerate its members’ respective transitions toward a low-carbon energy mix through investments in renewable energy, energy efficiency and reduction of carbon emissions from fossil fuels.

Energy Strategy Guiding Principles

4. Manage Local and Regional Pollution.
5. Catalyze Private Capital.
6. Promote Regional Cooperation and Connectivity.
